About Cable&Wireless Worldwide

Cable&Wireless Worldwide (LSE: CW.) is one of the world's leading mission critical communications providers, delivering a range of high-quality managed voice, data and IP-based services and applications to large multinational companies, governments, carrier customers and resellers across the UK, Asia Pacific, India, Middle East & Africa, Continental Europe and North America.

Reaching 20,500km in length, Cable&Wireless Worldwide owns the UK's largest fibre network dedicated to business users of telecoms, and provides ubiquitous nationwide access through a

combination of fibre, digital, microwave, radio and leased circuits. The network has presence in over 400 towns and cities in the UK, with 802 unbundled exchanges covering 55% of the population.

Internationally, Cable&Wireless Worldwide's global next-generation network (NGN) stretches to more than 500,000km, including interests in 69 global cable systems, and provides connectivity to 153 countries. The Group's IP-based Multi-Service Platform operates across the NGN, offering a single environment on which voice and data applications can be converged to drive business efficiencies. Cable&Wireless Worldwide's network is uniquely designed with inbuilt resilience and the capability to re-route traffic in the event of failure of one or more paths, particularly at the international level.

With more than 6,200 colleagues globally, Cable&Wireless Worldwide is committed to delivering exceptional customer service and developing long term partnerships with its customers.
